VEMPALLI FAZIL

Test Engineer

9390096846 | asrarfazil786@gmail.com | India | portfolio | LinkedIn | GitHub

SUMMARY

Infosys engineer with hands-on training in Selenium WebDriver and Java. Wrote browser tests, worked with locators and waits, and configured TestNG suites in Eclipse. Built a role-based learning platform using Angular, ASP.NET Core and SQL Server.

SKILLS

Test Automation	**:**	Selenium WebDriver, TestNG
Programming Languages	**:**	Java, SQL, JavaScript
Browser Testing	**:**	Element locators, browser interactions, implicit waits
Test Execution	**:**	TestNG annotations, XML test suites
Development Tools	**:**	Eclipse, Visual Studio Code
Web Technologies	**:**	Angular, ASP.NET Core Web API, HTML, CSS, Bootstrap

PROJECTS

LearnMoreApp – Online Learning Management System

Angular | ASP.NET Core Web API | SQL Server | Bootstrap

- Developed a role-based Learning Management System for Admin, Instructor, and Users**.**
- Implemented secure Login and Registration with role-based navigation.
- Created modules for Course Management, Instructor Management, User Enrollment, and Course Viewing.
- Integrated Angular frontend with Microsoft ASP.NET Core Web API using REST APIs.
- Designed SQL Server database with stored procedures, functions, and normalized tables.
- Implemented validations, routing, reusable services, and responsive UI using Bootstrap.
- Followed layered architecture (Controller, Service, Repository, DAL) and SDLC best practices.

WORK EXPERIENCE

Test Engineer · Infosys | Chennai, India **Feb 2026 – Present**

Promoted from System Engineer Trainee

- Completed hands-on training in web test automation with Selenium WebDriver and Java.
- Wrote Java scripts to open web pages, locate elements and perform browser actions.
- Used WebDriver locators to identify page controls for automated interactions.
- Configured implicit waits to allow time for elements to appear during test execution.
- Organized Java test methods with TestNG annotations and defined test suites in XML.
- Troubleshot TestNG suite configuration and Java test execution in Eclipse.
- Built LearnMoreApp as an Infosys training capstone using Angular, ASP.NET Core Web API and SQL Server.
- Implemented role-based access and input validation for course management and enrollment workflows.

EDUCATION

S.V.U. College of Engineering, Tirupati, India - *Bachelor of Technology Electronics & Communication (71%)* **2021 - 2025**

Sri Chaitanya Jr College, Tirupati, India - *BIEAP, MPC (96%)* **2019 - 2021**

I.K High School, Rayachoti, India - *BSEAP, SSC (93%)* **2018 - 2019**

CERTIFICATIONS

Google Professional Cloud Developer – Infosys

Google Data Analytics – Coursera

Oracle Cloud Infrastructure 2025 Generative AI Professional – Oracle (2025)

ACCOMPLISHMENTS & WORKSHOPS

- Achieved Google Cloud Platform Arcade Premium Plus Milestone (2024).
- Represented S.V. University at SIGMOID 2024 on AI & Robotics Innovation.
- Successfully conducted multiple tech workshops on Drones and Space Technologies.
- Participated in ISRO’s Space Technologies Workshop.
- Volunteered at Technology & Drone Workshops during college events.
